# 6,423

That's the number of anti-2SLGBTQI protests and instances of online hate we've tracked in Canada. And that's just from the first three months of this year. If we included every act of violence, every unreported threat, and every attack on our right to exist—there wouldn't be any flag left.

There's a rising tide of hate in this country that can no longer be ignored. So, we're calling on you, as leaders and decision makers, to act now.

In the following pages, you'll find just some of these 6,423 attacks, bound together by the threads from the pride flag they aimed to destroy. Hate wants to pull us apart, but we won't let them unravel our pride.
